

My

My papa and me Lachan Wilson 9

When I go to my papa's house I help him with his birds. My papa breeds birds so I help him when he is home he is busy he is at regency park that is at TAFE SA. He is the boss as well.

He teaches me how to cook I know how to do garlic and I can make stew, soup, pates, and meat loaf.

He teaches me to breed my own birds so far I have two breeding pairs. They are two kings and cockatiels. I have 10 birds at my papa's place and one bird at my house.

We go for a very long walk around the block for 40 minutes.

I love my papa and my birds.

My Family

Name: Holly Webster

age: 8

Let's start by telling you about me, My favourite colour is turquoise and my favourite animals are dragons and whales.

Now my sisters and Dad favourite colour is black and their favourite animal is a tiger. They are pretty much the same.

And last my Mum, her favourite colour is pink and her favourite animal is a dog.

We like going to the beach for picnics and Rosie gets a run around. We like burying Rosie's bone in the sand and she digs it out, it's really funny. Then we normally walk to the playground that's near the beach. It has a rope thing you twist around and then you go spinning down. Then when we are finished we go home. That is what my family is like.

My family and me
Michael Madi age 8.

I like my family because they take me to the park and play with me. They play cricket, footy, baseball and gridiron. My aunty is beautiful and she is a good artist. My uncle is cool. He can kick a footy 50m! My sister is naughty. I also have a baby brother. His name is Antong. He cries a lot! My other sister is also naughty but I still love her. Thank you for reading my family story!
