

Evacuation Action Decision Flowchart

Check your home's flood risk and evacuation action guidelines!

Use the separate map to check the flood depths of the **Edogawa River and Mama River, inland flooding, and storm surges!**

Even if you have to evacuate 100 times, and each time is a false alarm,
evacuate on the 101st time too!

<Legend for decision making>

☑ : Preferable action △ : Emergency action ✕ : Dangerous action

✕ If your home is in a landslide warning area, you should evacuate as soon as possible.

⚠ Use your own judgment to take the most appropriate action.
