## 7. Precautions on the application for authorized childcare facilities

**【Acceptable age of month】**

Each authorized childcare facility specifies an acceptable age of children (See Page 55: **Map of authorized childcare facilities**). Except for admission on an exact day a child turns 57 days old, a child must reach the specified acceptable age as of the first day of the admission month you prefer. Please carefully consider your child's birthday and admission month and apply to according to a childcare facility.

e.g. : At childcare facilities which specify acceptable age of children as "6 months or older", only the children born before October 1st of the previous year are eligible to apply for April use.

**【Application of children who are under 6 months old】**

- You can apply from the month when your child turns 57 days old (57th day from the day after the birthday).
- If your child enters the facility in the month your child turns 57 days old, the start of use date will be the very day your child turns 57 days old. If you hope to use the facility in later months, the first day of each month will be the start of use date.
- If you hope to start to use at 57 days old, you should follow the same deadline for regular application.
- If you hope to start to use the facility at 57 days old, apply to a childcare facility that accepts 57-day-old children.
- Extended childcare hours and the way of gradual entry period vary among facilities. Please check with your preferred childcare facilities. Public nursery schools do not provide extended childcare for children under 6 months old.

**【Application for a preferred childcare facility】**

- **Visit the childcare facility with your child before you apply. (Advance notice required)**
  Private authorized childcare facilities (including recognized child nurseries and small size nursery facilities) have difference in childcare policy, acceptable age of month, opening hours, shorter time slots, food allergy supports and availability of a play yard, etc. Some facilities limit the hours in 0-year-old classes, charge for uniforms and other expenses or require to bring lunch on Saturdays, etc. We would recommend that you take a tour of the facility before you decide. Some childcare facilities mandate a pre-admission visit (See Page 55：Map of authorized childcare facilities)
- There is no limit to the number of childcare facilities you can apply to. To avoid withdrawing a provisional acceptance offer with a reason such as difficulty in getting to and from the facility, you need to carefully choose facilities after considering your commuting route and time and who will drop off and pick up your child.
  ※ Withdrawing an offer can be detrimental to subsequent admission adjustment. (See Pages 27 - 28)
- Please check with childcare facilities in advance whether you can drive to and from them. Public nursery school does not have a parking lot.

**【Food allergies, Religious or other dietary restrictions, Keeping of medicines】**

- Authorized childcare facilities provide allergen-free meals for children with food allergies to the extent possible. If the facility has difficulty in fully dealing with allergies, your child needs to bring own lunch or snacks.
- Public nursery schools do not deal with dietary restrictions for religious or other reasons. Responses at private childcare facilities vary by facility. Please make sure to check with the childcare facility about how they accommodate children with dietary restrictions.
- As a rule, it is not possible to keep your child's medicine at a childcare facility.

## 【Application of children who have health problems, disabilities, or developmental concerns】

If you have concerns about leaving your child at a childcare facility due to the child's physical or mental condition, such as illness, disability, etc., you have concerns about your child's developmental delay, **contact the Division of Nursery Facilities Admissions before you apply.**

### ＜Regarding children requiring medical care＞

For children requiring medical care, the required documents and application process during the interview are slightly different. Please check the city's official website via the scan code on the left. You can also download the required documents from this page.『Procedures for Applying for Childcare Facilities for Children Requiring Medical Care (April 2027 admission adjustment)』https://www.city.ichikawa.lg.jp/page/4055.html

### ＜Process from Consultation to Application＞

**1. Prior Consultation**

Please contact the Division of Nursery Facilities Admissions to explain your child's status and your desire to enroll in a childcare facility. Hearing them over the phone, a nurse interview will be scheduled.

**★★ For those seeking enrollment in April 2027 ★★**

Due to a lot of applications every April, we will accept enrollment pre-consultations for childcare facilities during the period below, specifically for children with illnesses, disabilities, or developmental concerns seeking enrollment in April 2027. Nurse consultations require an appointment.

**Pre-consultation period: Aug.3rd (Mon) 2026 ～ Sep. 30 (Wed) 2026**

Those who underwent an interview during this period should submit the required documents to the Division of Nursery Facilities Admissions during the application period, along with the "Interview Completion Certificate" from the staff during the nurse interview.

※The above period is the time during which consultations are accepted. Depending on your appointment, the date and time of your nurse consultation may be scheduled after the pre-consultation period.

**2. Visiting Desired Facilities**

Before application, please visit the preferred childcare facility, take a tour, and tell your child's condition. You don't have to finish all the visits before being interviewed by a nurse. But be sure to finish the visits before the application.

**3. Nurse Consultation and Confirmation of the condition**

Before admission adjustment, we would like to see your child's condition in the following ways:

- ○ Visit the Division of Nursery Facilities Admissions with your child and have an interview with a nurse.
- ○ You may be asked to submit a medical certificate/opinion letter by your family doctor or have an interview with a specialized development-support facility.
- ○ To ensure the safety of your child, we may request a trial childcare session with parental consent prior to enrollment.

※If you are in a hurry for admission, please make an appointment for consultation early. It may take time for us to arrange a trial visit, and therefore, you may have to wait some time for admission.

**4. Application**

Please submit the required documents to the Division of Nursery Facilities Admissions during the application period for the month you wish to enroll.

※Your child's illness or disability will not disadvantage you in admission adjustment, but you may need to wait for some time for admission until the childcare facility becomes ready to accept your child.

### ＜Precautions＞

- If you do not inform us of your child's illness or disability on/before the application, and it is discovered after we offer you a provisional acceptance for admission, the offer may be withdrawn.
- For a child who needs special care, consult a specialized facility such as the Child Development Center.

**【Precautions for those who are taking childcare leave】**

- You can apply **on condition that you will return to work from childcare leave by 10th of the month following the admission month.**
  ※You should return to work by the 10th of the month following the admission month, even if the 10th is Saturday, Sunday or a national holiday.
  ※"Return to work" means **returning to the same workplace with the same working hours as stated on the employment certificate submitted at the time of application.** (It is possible to return to work with shorter working hours than those stipulated in the labor contract by using the shortened working hours for childcarers). If you return to the same workplace but with fewer days or hours than those under the labor contract, or you resign or change jobs, the Index points given for admission adjustment will be different from that in a case you return to work. If you apply for the reason as a return to work but you did not do so, the provisional acceptance for admission may be withdrawn, or the child may be dismissed.

< Example >

In case you work at Company A for over 140 hours a month and take childcare leave:

① Return to work at Company A under the same contract terms and conditions as before, but with shorter working hours for childcarers under Company A's officially recognized system.
⇒ ○ Yes. It is recognized as a return to work.

② Return to work at Company A but change the contract to 130 hours of work per month.
⇒ × No. It is not recognized as a return to work, as your working days and hours have changed.

③ Leave Company A and start to work at Company B for over 140 hours a month.
⇒ × No. It is not recognized as a return to work, though working hours are as stated on the employment certificate.

- Temporary employees can change their clients as long as there is no change in the employment agency, but if there is a change in the number of days or work hours, the provisional acceptance for admission may be withdrawn, or the child may be dismissed. In case the working hours after returning are unclear, please apply with reason as job seeking activity.
- If your child enters a childcare facility earlier than the expected date of your return to work, you will be required to cut short the childcare leave and return to work. So, please arrange for earlier return to work when you apply. ※Those who are taking maternity leave an return to work on or after the 57th day of childbirth.
- If you were unable to enroll your child and able to extend your childcare leave, please check box 1.② on the "Declaration and Pledge to Return to Work After Childcare (Postnatal) Leave" and submit it. This will be handled without giving priority points for returning to work, and therefore it lowers your priority in the adjustment. However, if there is any vacancy at the childcare facility of your choice, you may receive provisional acceptance for admission. If you fail to return to work, the provisional acceptance will be declined, and subsequent applications will be disadvantaged. (See Pages 27 - 28). Please note that a "Notification of Suspension" cannot be issued when the provisional acceptance for admission is issued.
- A copy of the application may be required for childcare leave benefits. The city will not make copies, so if you are required to submit the copy, please make copies of all required pages and then submit them. **We are unable to return or view the documents once submitted.** This also applies to requests to change preferred childcare facilities. If you use the LoGo form to change your preferred facility, please be sure to print a screenshot before submitting it.
- Regarding the childcare leave allowance application procedure in detail, please ask your employer or "Hello Work (job placement office)" in the area where your workplace is located. The city does not have any information.

**【Application due to pregnancy or childbirth】**

If your reason for childcare needs is pregnancy or childbirth, the period you can use the authorized childcare facility is total 5 months (the month of expected delivery, and two months before and after that).

※ Even if the baby was born earlier or later than expected delivery month, the length of time you can use the facility will remain the same. Your child needs to leave the facility at the end of the 2 months after the expected delivery month.

※ A child who has little experience in group activity is less resistant and is vulnerable to infectious diseases. Each facility takes possible countermeasures but cannot avoid 100% in a group living. Consider and understand that point when you apply, especially if you have a newborn baby.

## 【Application of siblings at the same time】

- If you are applying for siblings simultaneously, please select from the following options:

| | | |
|---|---|---|
| ☐ 同じ月に同じ保育施設の入園のみを希望する。 | | |
| ☐ 同じ月に入園できれば別々の保育施設でも入園を希望する。 | ⇒ | ☐ 希望順位よりも同じ保育施設の入園を優先<br>☐ 別々の保育施設でも希望順位を優先 |

### ＜Selection method and Precautions＞

1. If you wish to enroll siblings simultaneously in the same childcare facility

| |
|---|

※Neither child will receive provisional acceptance for admission until both siblings receive one in the same month.

2. If you wish to enroll siblings simultaneously, but separate childcare facilities are acceptable

| ☐ 同じ月に入園できれば別々の保育施設でも入園を希望する。 | ⇒ | ☐ 希望順位よりも同じ保育施設の入園を優先　①<br>☐ 別々の保育施設でも希望順位を優先　②</td> |

① Even if their preference ranking is lower, they wish to enroll in the same childcare facility.

Example) Older child: Places available at the 1st and 3rd choices

Younger child: Places available at the 2nd and 3rd choices

→Both children will be offered places at the 3rd choice facility, even though it is a lower-ranked choice.

② Even if they end up at different childcare facilities, I prefer the facility with higher preference ranking.

Example) Older child: Places available at the 1st and 3rd choices

Younger child: Places available at the 2nd and 3rd choices

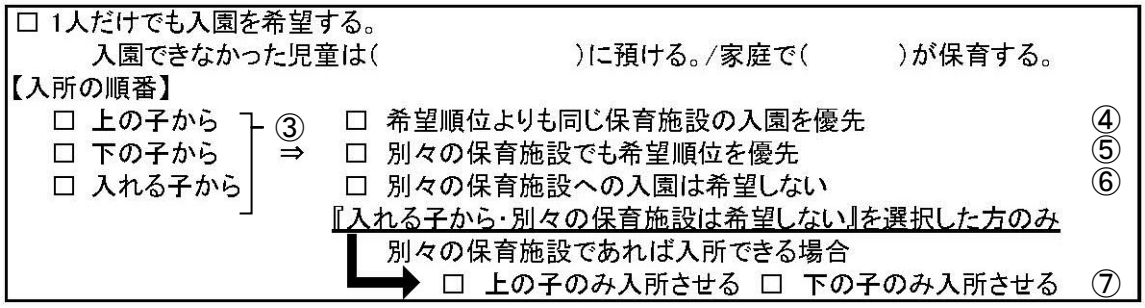

→The older child will be offered a place at the 1st-choice facility, and the younger child at the 2nd-choice facility

※In either case, neither child will be offered a placeacceptance for admission until both siblings receive one in the same month.

3. If you wish to enroll even any of one child

③ Please select the child you wish to prioritize for enrollment.
※Neither child will receive provisional acceptance for admission until the prioritized child receives one.

| Second choice | Waitlisted | Accepted |
| Third choice | Accepted | Waitlisted |

| Pattern B | Older child | Younger child |
|---|---|---|
| First choice | Accepted | Waitlisted |
| Second choice | Waitlisted | Accepted |
| Third choice | Accepted | Accepted |

**Example 1)** If you select "Older child first" in ③ and choose Pattern A:
→ The older child is accepted (prov.) at the first-choice facility, while the younger child remains on the waiting list.
**Example 2)** If you select "Younger child first" in ③ and choose Pattern A:
→ The younger child is accepted (prov.) at the second-choice facility, while the older child remains on the waiting list.
**Example 3)** If you select either "Older child first" or "Younger child first" in ③ and choose Pattern B:
→ Both children are accepted (prov.) at their third-choice facility, although this is a lower preference for both children.
**⑦ For those who select "Accept separate facilities if a place is available for one child first" only:**
If the children can be admitted to different childcare facilities, please choose which child should be given priority.

● If you select "Older child first" or "Child who can be admitted first" in ③ and the younger child remains on the waiting list while the parent continues parental leave, the older child's eligibility score will automatically be set to 9 points based on the standard score for the parent taking parental leave. In addition, Admission Adjustment Criterion No. 6 will not apply. (See Page 27.)
● Even if only one child is accepted (prov.), you must meet the requirements for staying enrolled, such as starting employment. For a child who remains on the waiting list, admission will be reassessed from the following month according to the stated order of preference. If you wish to change your preferred facilities to match those of the sibling who is admitted first, please complete the necessary procedures by the application deadline.
● When applying for three or more siblings at the same time, a separate declaration form must be submitted. Please consult the Division of Nursery Facilities Admissions.

## 【Other precautions】

- **If your circumstances at the time of enrollment differ from those stated in your application without prior notification, provisional acceptance for admission may be withdrawn**. Please submit the required declaration form when applying.
- If there are any unpaid childcare fees for the applicant child's siblings, it will disadvantage your priority in admission adjustment (See Page 27 – 28). Please be sure to contact us.
- Children attending kindergartens can apply for a childcare facility. However. If they are accepted, they must leave the kindergarten.

# 11. Admission adjustment for authorized childcare facilities

Based on the documents submitted during application period, the municipal government carries out admission adjustments for admission to the requested authorized nurseries.

※ If the number of applicants exceeds the number to be accepted, admission adjustment will be executed based on the total index adding the standard index and adjustment index (See Pages 26 - 27) (It will not be on a first-come first-served basis)

※ In case the total points of an applicant are the same as another applicant, priority order (See Page 28) will be employed.

※ Some nursery schools may not accept children depending on their status, even though it has not reached the capacity.

**[Notification of admission adjustment result]**

- The admission adjustment result will be sent to you by post. As for the estimated date of sending, please see Page 7. Please understand that the sending of the result may delay, depending on the status.
- You will for sure receive the notice of result for the 1st applying month, but from then on, you will receive the notice only in case you are provisionally accepted. Not receiving notification of provisional acceptance within 7 days after the planned posting date of the result means that admission to the childcare facility is suspended.
  ※The city does not inform you the result by telephone or at reception desk.

**[In case of provisional acceptance for admission]**

- After provisional acceptance, an interview will be held at the nursery. (The date and time of the interview is mentioned in the letter of provisional acceptance notice.)
  - ※ **If the interview is not carried out until one day before the date of admission, the provisional acceptance may be withdrawn.**
  - ※ **If, based on an interview or other assessments, it is determined that group childcare would be difficult, we may not be able to approve your application.**
- If your status may change from the time of applying for admission to nursery, please inform us in advance.
- If you cancel the admission or provisional acceptance, please inform the Division of Nursery Facilities Admissions as soon as possible, and submit the following documents:

・If you are provisionally accepted but not yet received notification of acceptance to use nursery, please submit Application to Cancel Provisional Acceptance for Admission in Ichikawa City / Notice of Withdrawal of Application for Childcare Facility Enrollment and Notice of Cancellation of Certification of Education and Childcare Benefits or apply by LOGO form via the scan code shown on the inside cover.

・If you have already received notification of acceptance to use nursery, please submit Notice of Withdrawal from Childcare Facility Use and Notice of Cancellation of Certification of Education and Childcare Benefits.

※ **When you cancel provisional acceptance, your Application for Childcare Facility Enrollment will be withdrawn. You can apply again but you may be disadvantaged in admission adjustment.** (See Pages 27 - 28)

<Notes Regarding Applications for January–April>

- If you receive a provisional admission offer for January–March, your application for April (First Round) will be automatically withdrawn.
- If you decline a provisional admission offer for January–March, you may apply during the application period beginning on the day after you declined the offer.

- If it is proven that the status at provisional acceptance has changed from the time of application (for example, your contracted workweek was shortened), the provisional acceptance may be cancelled.
- If you hope to change nursery school, see Page 32.

**[In case of admission suspended]**

- In case admission is suspended, admission adjustment will be continuously carried out every month within the fiscal year. Therefore, you don't have to submit application form each month. If you hope to continue application in the next fiscal year, you need to submit all required documents anew within application period for April admission. If you fail to do so, your application will be automatically canceled after the admission adjustment for March admission and you will be out of the admission adjustment in the next fiscal year.
- If there are any changes in your family status, some documents need to be submitted. Make sure to submit the necessary documents (See Pages 22 - 24) to the Division of Nursery Facilities Admissions.
- If you need "Notification of Suspension" to extend childcare leave etc., please submit "Application for Notification of Suspension" or apply with LOGO form via the scan code shown on the inside cover. (It takes about a week to issue the notification)

# 12. Precautions for admission to authorized childcare facilities

- If you hope for admission in the month of the 57th day after birth, the admission date should be the very 57th day from birth. If you hope for admission in a later month, the admission date should be the 1st day of each month.
- "Gradual entry period"starts right after the admission so that your child can gradually get used to the facility.
  ※ Gradual entry period usually lasts 10 to 14 days, depending on a status of the facility and your child. The hours your child spends at the facility will become gradually longer during this period. Therefore, you must pick up your child a little earlier during this period. Consult with your employee for the timing you should return to work. It is not possible to arrange a gradual entry period before admission.
- Note that the below precautions after admission vary depending on your status at the time of application. Submit required documents by designated deadlines.
  ※ If we find any fact which is different from your declaration at the time of application, your child is required to leave the facility.

| Your status at the time of application | | Precautions |
|---|---|---|
| 1 | Working | Submit "Employment certificate" and other documents if there is any change in your working status. |
| 2 | Returning to work | You must return to work (to the same workplace under the same work conditions in a labor contract) by the 10th of the following month of the admission. Submit "Employment Certificate (issued after returning to work)" (See Page 17) |
| 3 | Being ill | If you start working after recovery from illness, you should start working by the 1st day of the following month of the job seeking period (from the 1st day of job seeking to the last day of the month including the 60th day) and submit "Ichikawa City Application for Change in Certification of Education and Childcare Benefits" and "Employment certificate." If there is no reason for childcare needs anymore after recovery from illness, your child should leave the facility. |
| 4 | Giving care Accompanying | If you start working after you finish caregiving/accompanying, you should start working by the 1st day of the following month of the job seeking period (from the termination date of caregiving/accompanying to the last day of the month including the 60th day) and submit "Ichikawa City Application for Change in Certification of Education and Childcare Benefits" and "Employment certificate."<br>If there is no reason for childcare needs anymore after you become free from caregiving/accompanying, your child should leave the facility. |
| 5 | Job seeking, or received provisional offer of employment or school admission | • <u>When admitted while job seeking</u><br>You must begin working by the first day of the month following the two-month job-seeking period after enrollment, and must submit both the "Ichikawa City Application for Change in Certification of Education and Childcare Benefits" and the "Employment Certificate" (issued after you begin working). If you are unable to start working by the deadline, your child should leave the facility.<br>• <u>When enrolled based on a confirmed offer of employment (or school admission)</u><br>You must begin working or studying under the same conditions (workplace/school and working or study hours) as declared at the time of application, within the pledged period. Please submit the "Ichikawa City Application for Change in Certification of Education and Childcare Benefits" by the end of the month prior to the start of employment (or schooling), and after you have started, submit the "Employment Certificate" (or "Enrollment Certificate" and class schedule). If the actual conditions after starting work or study differ from those declared at the time of application, your child is required to leave the facility. |
| 6 | Attending school | If you start working after completing the school year, you should start working by the 1st day of the following month of job seeking period (from the day of the completion to the last day of the month including the 60th day) and submit "Ichikawa City Application for Change in Certification of Education and Childcare Benefits" by the last day of the previous of the month you start working and"Employment certificate"after you start working.<br>If there is no more reason for childcare needs after completion of the school, your child should leave the facility |
| 7 | Giving birth | You can use authorized childcare facilities for 2 months respectively before and after the expected month of baby delivery (Maximum 5 months). Your child should leave the facility within 2 months after the expected month of baby delivery. |

# 13. Precautions during use of authorized childcare facilities

**【Change in the Certification of Education and Childcare Benefits, or household status】**

If there is any change in name, address, work status, pregnancy/giving birth, household status or child's health condition, immediately submit the documents shown on Pages 22 - 24 to the Division of Nursery Facilities Admissions.

※ If there is no more reason for childcare needs (See Page 4) or you don't submit required documents, your child should leave the facility.

- When you retired from work, you need to apply for the change by submitting "Application to change Education and Childcare Needs Certification" and "Application to change Childcare Facility Enrollment". After the application, "Reason for childcare needs"should be switched from "Working" to "Job seeking activity" and "Needed childcare hours" should be short hours.
- The job-seeking period ends on the last day of the month that includes the 60th day from the start of job seeking, and the deadline for starting work is the first day of the following month. If you are unable to begin work by the deadline, your child will be withdrawn from the childcare facility. Please change the "Reason for Needing Childcare" from "Job Seeking" to "Employment" by the end of the preceding month of the start of work. If you require standard period childcare, please also change Needed Childcare Hours. Regardless of whether there is a change in your workplace, if your working hours or commuting time etc. change that affects the required childcare hours, please submit the "Application for Change in Certification of Education and Childcare Benefits" to update the "Needed Childcare Hours."
- If you become pregnant with your subsequent child, follow the necessary procedure.
  When you gave birth to your subsequent child and take childcare leave, the child who is currently in the nursing facility can continue to use the facility until the end of the month when the childcare leave for the newborn baby ends. In this case, "Reason for childcare needs" should be changed to "Childcare leave." "Needed childcare hours" also should be changed to short hours. "Submit Application for Change in Certification of Education and Childcare Benefits" for these changes (See Page 23).
- If you resign from your job due to childbirth, your child may remain enrolled in the childcare facility under the pregnancy/childbirth category from two months before the expected month of delivery until the end of the month that includes the 56th day after childbirth. After that period, the job-seeking period begins on the 57th day after childbirth and continues until the end of the month that includes the 60th day from the start of job seeking. You must begin working by the first day of the following month and submit a "Employment Certificate" (issued after you begin working).

**[In Case of absence]**

If your child needs be absent for two weeks or longer, you must submit the Ichikawa City's Notification of Absence from Childcare Facility (see the reverse side of the cover page).

The maximum period of absence is **three months** (including cases such as going back to your hometown to give birth). Example: If the absence begins on August 1st, your child must resume attendance no later than November 1st.

For details regarding meal costs (supplementary food fees) during the absence period, please refer to page 33.

**【Holiday childcare】**

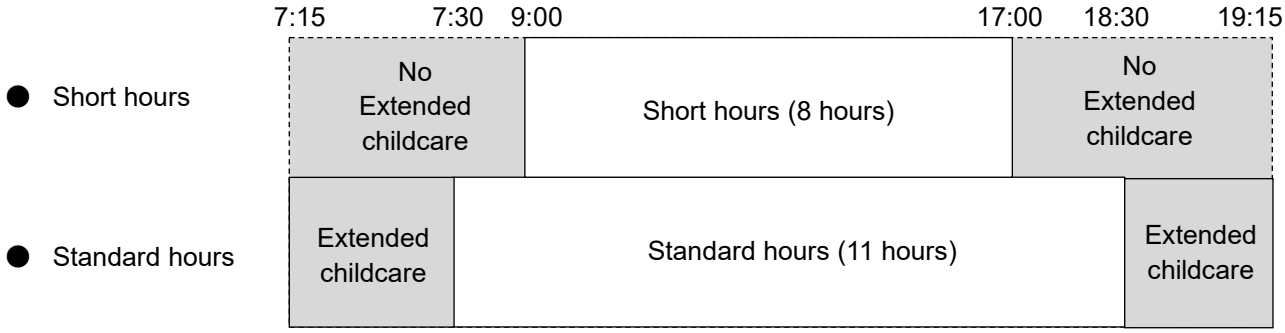

Authorized nursery schools can take care of your children when you cannot do so at home on weekends and public holidays because of the job and other reasons.

## 【Extended childcare】

Under the extended childcare system, authorized childcare facilities can take children for longer hours than normal operating hours.

【Example of Extended Childcare Hours (Weekdays)】

※ The time period for short-hour childcare (8 hours) and the hours for extended childcare vary depending on the facility. Please contact each facility for details.

| | |
|---|---|
| Who can use | Children who have Certification of Education and Childcare Benefits for short-hour childcare (8 hours) are not eligible to use extended childcare beyond that certified time. If you need beyond 8 hours, in principle, you should submit “Ichikawa City Application for Change in Certification of Education and Childcare Benefits” and other documents in order to switch the needed childcare hours from short hours to standard hours. |
| When available | You can use for the estimated longest hours necessary for the use of childcare facility<br>Example: Commute (1 hour) + Work (8 hours) + Commute (1 hour) = 10 hours<br>※ In principle, maximum permissible hours should be determined by working hours which your workplace filled and certified in application documents for the extended childcare system (each facility’s designated form). Being certified with Standard hours does not necessarily mean that you can freely use maximum 11 hours to the full extent. |
| Fee | There is no extended childcare fees, but depending on each childcare facility’s regulations, you may be charged for actual expenses or other fees. Please contact the individual childcare facility for details. For childcare services provided beyond extended hours, additional fees may cost you according to each facility’s regulations. Contact each facility for actual fees and meal availability and other related fees. |
| How to apply | Apply directly to the facility. If you hope to use extended childcare, contact the facility in advance for the details. |

## 【Continued use for the next year】

If you hope to continue to use the authorized childcare facility also for the next year, you need to apply accordingly. The facility will notify you of the procedure around November.
Note that you must take the necessary procedure within a designated deadline. **Otherwise, your child should leave the facility as of the end of the school year (end of March), since we cannot confirm your will and eligibility.**

## 【Transfer to another authorized childcare facility within Ichikawa City】

### < How to apply for a transfer >

- If you hope to change to another facility due to such reasons as moving, submit “Ichikawa City Application for Transfer to Another Childcare Facility” and documents ③ to ⑥ shown on Pages 11 - 14 by the deadline of the month you hope to transfer.
- You can’t apply to change to another facility before admission. Please submit your application during the monthly application period after you’ve enrolled.
- Visit the facility you hope for, in the same way as you did in the first place (See Page 15)
- “Notification of admission adjustment result”, “In case of provisional acceptance of admission,” and “In case admission is withheld” are applied also to the case of transfers. (See Page 25)
- You will be disadvantaged in admission adjustment if you hope for a transfer to the facility which you previously applied for. (See Page 27)
  Example：You had applied for admission to A nursery school (1st priority) and B nursery school (2nd priority), and were admitted to B nursery school. Later, you apply to transfer to your 1st choice, a nursery school.
  ※You will not be disadvantaged in case you hope to transfer to the same facility where your sibling goes.
- New applicants will be given higher priority if the index (the sum of Standard Index and Adjustable Index) is equal between new applicants and those who apply for transfer (See Page 28).

### < Precautions after you received provisional acceptance for transfer >

- Note that once you receive a provisional acceptance for the transfer to the childcare facility you hope for, even if you decline the provisional acceptance, your child cannot continue to use the current facility anymore. So, if you do not need to transfer anymore, immediately withdraw the transfer application with “Application to withdraw Childcare Facility Enrollment”. (See the other side of the front cover.)
- Prior to admission, there will be an interview with the new facility. “Gradual entry period” starts right after admission. (See Page 29)

## 【Leaving the childcare facility】

When there is no more need for childcare due to retirement, or you need to leave the current facility due to moving out of Ichikawa City, immediately apply for the leaving with “Ichikawa City Notification of Leaving Childcare Facility” and “Ichikawa City Application to cancel Education and Childcare Needs Certification.” (See the other side of the front cover.)

※ Once you submit “Ichikawa City Notification of Leaving Childcare Facility,” it is not possible to withdraw.
※ In case you are moving out of Ichikawa City, you can use the facility until the very end of the month you move out.

### < If you hope to continue to use the authorized childcare facility in Ichikawa after moving out >

If you hope to continue to use the same facility even after you moved out of Ichikawa City, accordingly fill in and submit “Ichikawa City Notification of Leaving Childcare Facility.”
After you moved and registered as a resident in the municipality, you need to apply for continuous use of the same Ichikawa facility at that municipality as well. (See Page 21)

※You can continue to use the facility in Ichikawa only until the end of the school year. If you hope to extend the use to the next school year, you need to apply from the beginning as a new application. (This case is handled as a brand-new application in admission adjustment). However, if either parent works in Ichikawa City, or if the family resides in a municipality adjacent to Ichikawa City (Funabashi City, Matsudo City, Kamagaya City, Urayasu City, or Tokyo’s Edogawa Ward or Katsushika Ward), continued use will be permitted in subsequent years by completing the renewal procedures each fiscal year.

※ Division of Nursery Facilities Admissions will inform the eligible household of it separately.

# 15. Plain nursery school (including childcare facility within workplace), Company-led nursery facility (with a Community Slot)

Ichikawa City designates certain unauthorized childcare facilities that meet specific standards as “plain nursery school”. Children attending these facilities are eligible for either the national Facility Use Benefits for Child Rearing, depending on their age and other factors, or a subsidy provided by Ichikawa City.

Company-led nursery facilities are childcare facilities established with government subsidies to support employees in balancing work and childcare. They are classified as unauthorized childcare facilities. These facilities have two types of enrollments: an “Employee Slot” for employees of companies that have an agreement with the facility, and a “Community Slot” for local residents and others. You are eligible for the subsidy below regardless of which type of slot you use.

<table>
<tr><th>Class age</th><th>Income-based municipal inhabitants tax</th><th>Plain nursery school (incl. childcare facility within workplace)</th><th>Company-led nursery facility</th></tr>

(Note) Households should meet necessary requirements to use these programs.

④ You took a leave of absence while being employed (such as maternity leave, childcare leave, or leave due to illness) but failed to take the required procedure to change the employment status.

※ Please note that if it is determined after the subsidy has been granted that you no longer meet the eligibility requirements, such as the requirement to need childcare, you will be required to return the subsidy you received.

**< Q&A >**

Q. I will return to my workplace as my childcare leave will end. Therefore, I would like to enroll my child in a plain nursery school. From what date will I be eligible for the subsidy?

A. If you return to work by the 10th of the month following the month in which your child enrolls, the subsidy will be provided starting from the month of enrollment.

※As we need to verify your return-to-work date, please submit a Employment Certificate issued after your return to work.

(Example)

Enroll your child in a nursery school in April and return to work on May 10th. ⇒ You will receive subsidies from April

Enroll your child in a nursery school in April and return to work on May 11th. ⇒ You will receive subsidies from May

Q. My child currently attends a plain nursery school and receives a subsidy. I am expecting my second child and will take maternity leave and childcare leave. I would like my first child to continue attending the plain nursery school during my childcare leave. Will I continue to be eligible for the subsidy during this period?

A. Yes. You can keep receiving subsidies for your first child during your second child's maternity leave and childcare leave (until the end of the month the childcare leave ends). The subsidies will be paid until the end of the last month of your childcare leave for your second child.

In addition, if you leave your job, such as because you are a part-time worker, in connection with the birth of your second child, you will be eligible for the subsidy based on the pregnancy and childbirth requirement for a total of five months: the two months before and the two months after the expected date of delivery, plus the month of the expected date of delivery. Outside of this period, you will only be eligible for the subsidy if you meet a requirement for needing childcare, such as employment.

For the five-month period covering the prenatal and postnatal periods, you will need to submit copies of your Maternal and Child Health Handbook (the cover and the page showing the expected date of delivery). For the period of childcare leave, you will need to submit an Employment Certificate stating the period of childcare leave.

Q. My child attends a plain nursery school and receives a childcare fee subsidy. I have left my job. Can I continue to receive the subsidy while I am looking for a new job?

A. If you are receiving the subsidy based on the job seeking activity requirement, you will be eligible for the subsidy through the end of the month that includes the date 60 days after the start of your job search.

Please enter the date you left your previous job on the Amendment application for Childcare Fee Subsidy for Plain Nursery Schools and Other Facilities, and submit it together with the Declaration of Job Seeking Activity.

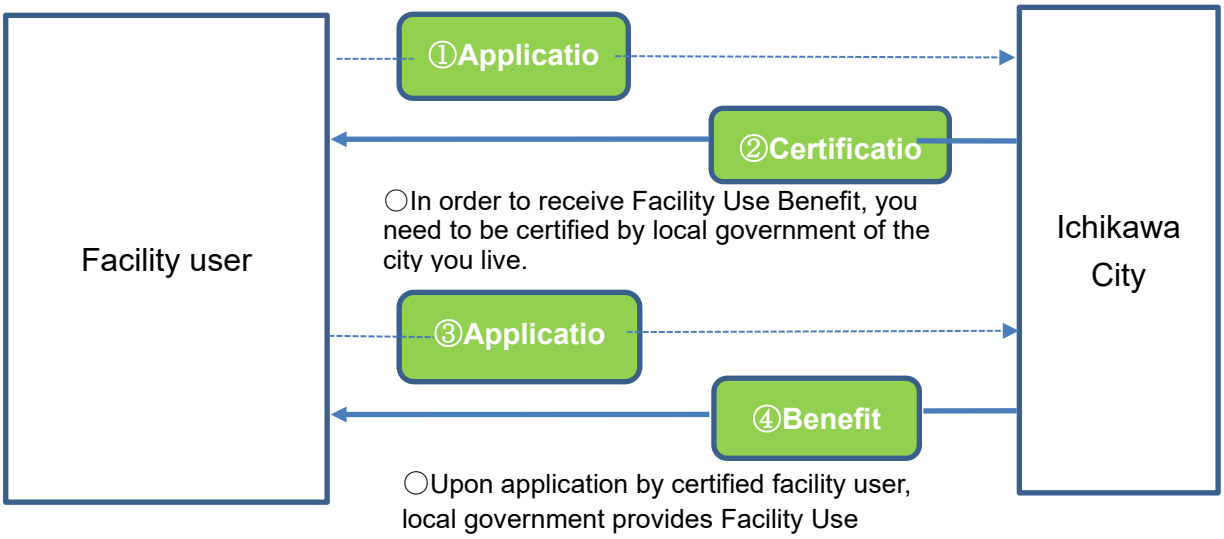

After you start working, you will need to submit an Employment Certificate. Please indicate on the Amendment application for Childcare Fee Subsidy for Plain Nursery Schools and Other Facilities that you have started working and submit it together with the Employment Certificate.
